Measurements:

- Thick White card base 7" X 5 1/2" score at 1 3/8" & 5 5/8"
- White textured layer 2 1/2" X 3 1/4", greeting strip 3 1/2" X 1/2"
- Hydrangea layer 2 3/4" X 3 1/2" & 2 3/4" X 5 1/2"
- In Color DSP 1 1/4" X 5 1/2"

Directions:

1. Adhere the DSP to the long Hydrangea Hue CS. Fold the card base on the score lines. Insert this layered piece inside and center it with the card base edges. Add adhesive to the left side of the Hydrangea layer and close the left flap to adhere.
2. Adhere the textured White layer to the Hydrangea layer. Adhere to the card front by adding adhesive to only the left half of this textured piece. Leave the right side free of adhesive so the right side of the White card base can slip between the two to latch it closed.
3. Stamp the butterflies and punch out. Add to the textured area.
4. Stamp the greeting and trim the edges and adhere. Add a knot of ribbon if desired.
5. Stamp the inside butterflies.
